Jan-Feb. 2018

My name is J.C. and I am an alcoholic. 2018 will be a year of solid forward progress at Metrolina Intergroup. Thank you to all the groups and individuals who helped us cover 100 percent of our moving costs and thanks to others who showed to help with packing and moving. I share your excitement about our new location and the opportunity that this brings to attract folks into our programs, service structure and bookstore.

Your Intergroup is healthy and engaged. Our board, staff and committees are united in action toward our core mission. Our finances are in great shape thanks to broad support among home groups in the city and region.

I will briefly lay out my vision and agenda for the year. Your Intergroup will become more connected with delegates and AA members at large – in the metro area and across the region that we serve. Through dozens of conscientious improvements in how we execute and communicate, I believe we will see these realistic results:

- More home groups will send more delegates to more meetings
- The flow of information and ideas between home groups and Intergroup will become more fluid and useful
- In the spirit of rotation, new faces will take service commitments in the office, on service committees and on nomination forms for the 2019 board
- The AA bookstore and literature sales operation will increase in its effectiveness to put the solution in the hands of members and others in the recovery community
- Elizabeth Avenue will become a hub of AA activities and friendships
- With a broadened base of home group support, our finances will become more stable over the long term

In grateful service, JC, chair
